Claims 1-78 are pending in the application and are subject to a restriction and/or election requirement in the Office Action mailed on November 28, 2006.

**II. THE ELECTION/RESTRICTION REQUIREMENT**

The November 28, 2006 Office Action requires an election of species under 35 U.S.C. §121 from the following groups of species:

- |                    |  |
|--------------------|--|
| <b>Species I</b>   | Claim 74 and generic claims 1-73, related to energizing the receiver for a first energized period and then deenergizing for a short period if no preamble signal is detected;  |
| <b>Species II</b>  | Claim 75 and generic claims 1-73, related to energizing the receiver for a first time period and then energizing for a second time period after a staggered rest period the length of which equals an integer multiple of one-half of a pulse period plus or minus a time delta, the time delta being less than one-half the pulse period; |
| <b>Species III</b> | Claim 76 and generic claims 1-73, related to energizing the receiver once sometime within a period of a relatively long preamble pulse; and  |
| <b>Species IV</b>  | Claims 77 and 78 only, related to activating the receiver according to a series of wake-up events in such a way that the receiver is at least activated during two activation periods and at most two activation periods occur during one and a same preamble pulse.   |

In response to the request for election, Applicant's attorneys elect for further prosecution in this application, the invention associated with Species I, related to claim 74 and generic claims 1-73. This election is made *without traverse* and is made without prejudice to the Applicants' right to file divisional applications directed to the non-elected subject matter.

An early examination on the merits of the claims of this application is respectfully solicited.
